

# The Grampian Way

## drives our community towards our shared vision:

Grampian is a diverse, **inclusive** learning **community** built upon a foundation of nurturing **relationships**. These relationships **empower** children to **overcome barriers** so that they can pursue the **opportunities** that school offers with **confidence** and **enthusiasm**. These opportunities motivate children to develop their **resilience** and **self-esteem** so that they can strive for **ambitious goals** at each stage of their journey through education. These goals enable children to develop their **self-awareness** so that they can make valuable contributions to society as **successful** and **respectful** citizens. These relationships, opportunities and goals are the key to 'unlocking positive futures' for every child.

## is built upon our curriculum pillars:

Building a foundation for learning through the League of Robots

Improving access to the curriculum through inclusive practice

Exploring and pursuing new knowledge, skills, opportunities and experiences

Securing positive belief in self and others

Celebrating difference by recognising and embracing diversity

Being calm and confident, ready and respectful

## is grounded in our values:

**Commitment:** We are brave, enthusiastic and motivated.

**Aspiration:** We are encouraging, ambitious and proud.

**Nurture:** We feel happy, safe and welcome.
